

Mobile extractor

GeoGo Mini - White Line

The GeoGo Mini mobile extractor is suitable for extraction and filtration of dust, aerosols, and other substances in the air.

These substances are typically generated in treatment rooms of dentists, podiatrists etc. and other activities where people are treated by people.

It is necessary to protect people from dust, aerosols, and other substances which can be harmful to the health.

The main advantages of the GeoGo Mini mobile extractor is:

- A small and flexible extraction unit with larger filter capacity
- Filtration of the air with F7 filter which retains particles of the size of dust and larger
- The HEPA H14 filter retain pollutants like bacteria and viruses
- The flexible arm gives opportunities for placing the extraction point precisely where needed
- A variety of hoods and pens secure the extraction which suits the specific need
- The turnable and easy running wheels gives an easy handling of the unit
- A potentiometer makes it easy to adjust the level of extraction

The Geovent GeoGo Mini mobile extractor is equipped with a 0,17Kw 230V fan which generates a powerful extraction flow to ensure the correct capture of the particles.

COVID-19 protection

We recommend that all guide lines and regulations of Ministry of Health and other official bodies will be followed when patients are treated. Measures like the use of face masks, eye protection, protective clothing etc. are obvious options.

Extraction of air at the face of the patient is an additional opportunity, which is chosen in various applications.

This kind of extraction will reduce the rate of pollutants that the patients, dentists and other persons are exposed to.

GeoGo Mini - White line

Technical specifications

Model	GeoGo Mini
Current	230 V
Output	0,17 Kw
Consumption	1,59 A
Filters	F7 and HEPA H14
Efficiency	99,995%
Class	H14
Filter area	F7: 1.9 m ³ H14: 4.3 m ³
Weight	55 Kg
Air flow	ø76: 240 m ³ /h - ø57: 130 m ³ /h
Noise level	50% = 55 dB 100% = 65dB

Ordering table

Art. No.	Description
15-150	GeoGo Mini - White Line. Plug'n'play unit, with extraction arm, fan and built-in filter.

15-196	Filter F7 for GeoGo Mini
15-197	Filter H14 for GeoGo Mini

GeoGo Mini - White Line

PERMA hood

Dimensions in mm

Model	GeoGo Mini H14
H	770
H2	703
L	706
