

Mobile extractor with built-in filter

GeoGo

GeoGo is a mobile unit with built-in filters. It is designed to be used in changing workplaces, e.g. for welding or grinding.

GeoGo is provided with aluminum metal pre-filter, and a V-bank F9 filter, so that the air is cleaned to a minimum of 95%.

It is supplied with an extraction arm to the customers request: WING arm, ASA-4 arm, or ESA arm.

These are $\varnothing 160$ mm in 2 or 3 meters.

The built-in fan is 1,1 kW 230V or 1,1kW 110V. It is quiet compared with equivalent products and has a maximum air flow of 1.450 m³/h.

GeoGo has strong rubber wheels, where the front wheels are turntable and with brakes, which ensures that GeoGo is easily moved and stable at work.

It is delivered with a 10 m cable with a plug that fits a standard wall outlet.

Weight without the arm: 120 kg.

GeoGo with ASA-4 arm, ESA arm, and WING arm
